

Enagic Product Purchase Options – Making It Easy For You

Cash – Enagic accepts cash payments for the purchase of any water ionizer or other high technology water treatment product.

Personal or Company Check – Enagic accepts both personal and company checks, however the company policy is that check payments be accompanied with valid credit card information, to be used as alternate payment in the event there are any issues with the check.

Credit Card – Enagic accepts Visa, MasterCard, Discover and American Express. Credit card payments must include the entire card number, the name of the card holder as it appears on the card, the card expiration date and the CVV (3 or 4 digit security code), which greatly reduces the possibility of customers becoming victims of fraudulent or unauthorized charges.

Enagic Payment Plan – Enagic offers a convenient, in-house, no credit turn down financing option. Each product purchased through the Enagic Payment Plan requires a small deposit, which is comprised of a modest good-faith down-payment, any applicable sales tax and the financing term installment charge. The total deposit works out to be approximately 25% of the product price. Four different monthly payment options, 3 months, 6 months, 10 months and 16 months are available for most Enagic products. Monthly payments are made automatically from either the credit card or checking account of the buyer, the choice is theirs. The deposit can be paid with cash, check or credit card, following the same conditions as listed above.

Note: Enagic products purchased in California, New York, Illinois & Hawaii are subject to state sales tax.

Special Purchase Program – Tokurei (Good Samaritan Plan)

Enagic offers a special program, called the Tokurei, which allows individuals without the means to purchase a unit using the normal options, to earn a unit over time, by making sales of Enagic products. A Tokurei may be started by the applicant finding a buyer for an SD501. Upon the completion of that transaction, the Tokurei is activated and entered into the Enagic system and they begin to earn both commissions and credits towards the purchase of their own SD501. A Tokurei earns sales commissions of \$235 per point, they are not eligible to earn the Special Points available to Enagic Distributors. Seventy-five dollars of these commissions are deducted and banked towards the purchase of the Tokurei SD501, the remaining balance is paid to the Tokurei distributor. Once enough sales have been made to accumulate the total amount for the SD501, the unit is shipped to the Tokurei and that person becomes an official Enagic Distributor with all rights and privileges.
